

HANDS ON PRACTICAL WORKSHOP ON
“How to conduct Information Systems/Security Audits”
29th and 30th August 2008, 9:00 AM to 5:00 PM
At Bell Hotel,
Lolite, 1st Floor, Next the City Railway Station, Bangalore

This two-day program aims to maximize delegate participation in workshops to get a practical exposure to information systems and security audits. The program is limited to participation of 25 delegates on a first come basis:

In the two days, the delegates will

- Learn about implementing the complete IS audit lifecycle, including planning, risk assessment, evidence collection, audit opinions and follow-up
- Learn how to identify and assess risk from the systems auditor’s perspective on:
 - General IT risks and controls
 - Application Risk and control
 - IT deployment risks
 - IT management risks
- Learn to audit
 - IT operations and management
 - Application development
 - IT infrastructure
 - Information Security Management
 - Business continuity plans
- Gain a perspective on GRC, COSO and COBIT as well as an IS auditors role in ISO 27001, Basel II, SOX and SAS 70 audits.
