

“Implementing COBIT® Using ISO Standards”

One-Day Tutorial on Saturday the 22nd September 2007

Jointly conducted by ISACA® Bangalore Chapter & SAI Global

Dear Sirs,

About ISACA

In the three decades since its inception, ISACA® has become a pace-setting global organization for information governance, control, security and audit professionals. Its IS auditing and IS control standards are followed by practitioners worldwide. Its research pinpoints professional issues challenging its constituents. Its Certified Information Systems Auditor (CISA®) certification is recognized globally and has been earned by more than 50,000 professionals since inception. The Certified Information Security Manager (CISM®) certification uniquely targets the information security management audience and has been earned by more than 6,000 professionals. It publishes a leading technical journal in the information control field, the Information Systems Control Journal. It hosts a series of international conferences focusing on both technical and managerial topics pertinent to the IS assurance, control, security and IT governance professions. Together, ISACA® and its affiliated IT Governance Institute lead the information technology control community and serve its practitioners by providing the elements needed by IT professionals in an ever-changing worldwide environment.

About SAI Global

SAI Global is one of the world's leading business providers of independent assurance (certification), business publishing (standards), business compliance & risk solutions and training with customers in over 150 countries. Our accredited trainings are unique – it is competency based and modular in design. We help delegates to acquire the required skill and competency to enhance their performance at work place, rather than having just theoretical knowledge.

We are jointly conducting a one-day tutorial on:

[Implementing COBIT® using ISO Standards](#)

Attached is the Fact Sheet of the course along with the Registration Form.

We are writing to invite you to take advantage of this unique training course and nominate colleagues from your organization. Since seats are limited, the nominations will be accepted on ***“first come first served”*** basis. Please send the attached Reply Form at the earliest

We look forward to your response.

Thanks and Regards

For ISACA® Bangalore Chapter
Secretary

Fact Sheet

Implementing COBIT[®] Using ISO Standards **One-Day Tutorial on Saturday 22nd September 2007, Bangalore**

Course Outline

COBIT[®] is a passionate term for all of us in ISACA[®]. But implementing COBIT[®] has remained a dream or has been effective in selected areas only. There are COBIT[®] certification courses available for the individual. However there is no opportunity if an organization wants to be certified to COBIT[®].

Is there a way out?

Yes, there is, ISACA[®] Bangalore & SAI Global propose a COBIT[®] 4.1 implementation methodologies tutorial based on ISO standards and popular P-D-C-A implementation methodology.

COBIT[®] is registered trademark of ISACA[®]

Course Objectives

At the end of the course, attendees will be able to:

- Define the Scope of COBIT[®] implementation.
- Prepare a Project Plan for COBIT[®] implementation
- Perform a formal risk assessment
- Select relevant Process Areas from COBIT[®] and the controls therein
- Implement COBIT[®] within the defined scope.
- Monitor and audit the management processes using COBIT[®]
- Demonstrate Project Management skills
- Contribute to business improvement through continual improvement techniques

The Benefits

- The practical emphasis of the course will provide substantial inputs to individuals.
- It is designed and delivered using a competency based training approach; this means we guarantee application of learning by assessing the skill knowledge and attitudes of participants;

Who should attend?

- Those who plan to implement COBIT[®].
- Information Security Professionals (CISA[®]/CISSP[®])

Prerequisites

Previous exposure to 'COBIT[®] mapping overview – 2nd Edition – August 2007 is desirable.

Award

Participants who complete this program will be eligible for a Participation Certificate from ISACA[®], Bangalore Chapter.

About the Trainer

Mr. M.N. Sudarshan is an Electrical Engineer from BMS College of Engineering, Bangalore and has worked in the managerial cadre for 33 years in six industries. He has 20+ certifications from professional associations including CISA and CISM. He is among the first batch of CISAs from India. He promoted the formation of new chapters of ISACA in Mumbai, Delhi, Bangalore and Riyadh.

Sudarshan's focus area is 'Management Systems and Processes' based on standards. He has work experience in quality, information security, software development, IT service management, BCP/DR, banking and has conducted assessments and training courses in more than 10 countries. He is an IRCA-registered Lead Auditor for QMS, BSI-registered Lead Auditor for QMS, ISMS, ITSM, Lead Tutor for IRCA-registered ISMS-LA and IRCA-registered QMS-LA, Implementation, Internal audit and other courses. Sudarshan is a BSI-registered qualifying reviewer for assessor qualification.

On behalf of ISACA, Chennai, Mumbai, Riyadh, Dubai, Bangalore and other chapters, Sudarshan has conducted training courses for CISA examination for more than 15 years and CISM course in 2005 & 2006. He is a founder member of ISACA in India and the Chennai chapter of Software Process Improvement Network (SPIN) and a life member of Computer Society of India since 1987. Since 1986, he has held various posts in ISACA Executive Committees in Chennai, Bangalore, Riyadh and Dubai and has spoken at various national and international seminars on quality, security and IT service management.

Sudarshan plans to join SAI Global, the Australian Certification Body as the ICT Global Program Manager in their Strategic Marketing Division. His main task would be to promote the 'SAI Global' brand and increase the global contribution of revenue from certification and training in Information and Communication Technology.
